Advanced Excel for Managers

Title: Advanced Excel for Managers

1. About the University

The ICFAI University, Tripura (referred to hereafter as the University) was established in 2004 through an Act of State Legislature (Tripura Act 8 of 2004). The University has been approved by the University Grants Commission, under Section 2(f) of the UGC Act, 1956.

The University campus based at Agartala is a lush green campus spread over 32 acres at Kamalghat Sadar, Tripura. It has over 6 lakhs sq. ft. of built-up area with academic blocks, workshops, laboratories, faculty rooms, auditorium, seminar halls, and computer labs with latest computing facility, well equipped

library, canteen, sports and recreation facilities. The campus also provides latest teaching aids and is Wi-Fi enabled. The University is being widely recognized as an institution devoted to quality research and teaching. The University gives utmost importance to Industry-University interface.

2. Advanced Excel Course Syllabus

This advanced Excel course syllabus is designed for the intermediate Excel user who desires to learn more advanced skills. Learn the most advanced formulas, functions, charts and types of financial analysis to be an Excel power user.

3. Syllabus (Module wise)

Excel Introduction

An overview of the screen, navigation and basic spreadsheet concepts

Various selection techniques

Shortcut Keys

Customizing Excel

Customizing the Ribbon, Using and Customizing AutoCorrect

Changing Excel's Default Options

Using Basic Functions

Using Functions - Sum, Average, Max, Min, Count, Counta

Absolute, Mixed and Relative Referencing

Formatting and Proofing

Currency Format

Format Painter

Formatting Dates

Custom and Special Formats

Formatting Cells with Number formats, Font formats, Alignment, Borders, etc

Basic conditional formatting

Sumlf, Sumlfs CountIf, CountIfs AverageIf, AverageIfs, Nested IF, IFERROR Statement, AND, OR,

NOT

Protecting Excel

File Level Protection

Workbook, Worksheet Protection

Text Functions

Upper, Lower, Proper , Left, Mid, Right Trim, Len, Exact Concatenate

Find, Substitute

Date and Time Functions

Today, Now Day, Month, Year Date, Date if, DateAdd EOMonth, Weekday

Advanced Paste Special Techniques

Paste Formulas, Paste Formats Paste Validations Transpose Tables

New in Excel 2013 / 2016 & 365

New Charts - Tree map & Waterfall Sunburst, Box and whisker Charts Combo Charts - econdary Axis

Adding Slicers Tool in Pivot & Tables Using Power Map and Power View Forecast Sheet

Sparklines -Line, Column & Win/ Loss Using 3-D Map New Controls in Pivot Table - Field, Items and

Sets Various Time Lines in Pivot Table Auto complete a data range and list

Quick Analysis Tool Smart Lookup and manage Store

Sorting and Filtering

Filtering on Text, Numbers & Colors Sorting Options Advanced Filters on 15-20 different criteria(s)

Printing Workbooks

Setting Up Print Area Customizing Headers & Footers Designing the structure of a template Print Titles -Repeat Rows / Columns

What If Analysis

Goal Seek Scenario Analysis Data Tables (PMT Function) Solver Tool

Logical Functions

If Function How to Fix Errors - if error Nested If Complex if and or functions

Data Validation

Number, Date & Time Validation Text and List Validation

Custom validations based on formula for a cell Dynamic Dropdown List Creation using Data Validation -Dependency List

Lookup Functions Vlookup / HLookup

Index and Match Creating Smooth User Interface Using Lookup Reverse Lookup using Choose Function Worksheet linking using Indirect Vlookup with Helper Column

Pivot Tables Creating Simple Pivot Tables Basic and Advanced Value Field Setting Classic Pivot table Choosing Field Filtering PivotTables Modifying PivotTable Data Grouping based on numbers and Dates Calculated Field & Calculated Items Arrays Functions What are the Array Formulas, Use of the Array Formulas? Basic Examples of Arrays (Using (trl+shift+enter). Array with if, len and mid functions formulas. Array with Lookup functions. Advanced Use of formulas with Array.

Charts and slicers

Various Charts i.e. Bar Charts / Pie Charts / Line Charts Using SLICERS, Filter data with Slicers Manage Primary and Secondary Axis

Excel Dashboard

Planning a Dashboard Adding Tables and Charts to Dashboard Adding Dynamic Contents to Dashboard

VBA Macro

Introduction to VBA

What Is VBA? What Can You Do with VBA? Recording a Macro Procedure and functions in VBA

Variables in VBA

What is Variables? Using Non-Declared Variables Variable Data Types Using Const variables

Message Box and Input box Functions

Customizing Msgboxes and Inputbox Reading Cell Values into Messages Various Button Groups in VBA

If and select statements

Simple If Statements The Elseif Statements Defining select case statements

Looping in VBA

Introduction to Loops and its Types The Basic Do and For Loop Exiting from a Loop Advanced Loop Examples

Mail Functions - VBA

Using Outlook Namespace Send automated mail Outlook Configurations, MAPI Worksheet / Workbook Operations Merge Worksheets using Macro Merge multiple excel files into one sheet Split worksheets using VBA filters Worksheet copiers

4. Examination scheme

Assignment and written examination

5. Fees

This course is targeted to the students for skill up gradation only, hence no fees.

6. Registration Process

Total intake will be 30 only by first come first serve basis.

7. Date of Commencement

23/11/2023

8. Schedule / Class routine

Time: 4:30 PM To 5:30 PM

9. Contact Person information

VALUE-ADDED COURSE

Data Analysis with R

Title: Data Analysis with R

About the University

The ICFAI University, Tripura (referred to hereafter as the University) was established in 2004 through an Act of State Legislature (Tripura Act 8 of 2004). The University has been approved by the University Grants Commission, under Section 2(f) of the UGC Act, 1956.

The University campus based at Agartala is a lush green campus spread over 32 acres at Kamalghat Sadar, Tripura. It has over 6 lakhs sq. ft. of built-up area with academic blocks, workshops, laboratories, faculty rooms, auditorium, seminar halls, and computer labs with latest computing facility, well equipped library, canteen, sports and recreation facilities. The campus also provides latest teaching aids and is Wi-Fi enabled. The University is being widely recognized as an institution devoted to quality research and teaching. The University gives utmost importance to Industry-University interface.

Objective: This course introduces how to present, analyse, and interpret data using the statistical analysis software package R. In virtually every field of work, being confident and competent in analysing data and drawing conclusions is extremely helpful. This course will help you develop those skills using R, which is a statistical package widely used in business, industry, government, commerce and the education and health sectors.

Syllabus (Module wise)

Module 1: Introduction: R: The R environment, Related software and documentation, R and statistics, R and the window system, Using R interactively, an introductory session, getting help with functions and features, Rcommands, case sensitivity, Recall and correction of previous commands, executing commands from or diverting output to a file, Data permanency and removing objects, Simple manipulations; numbers and vectors

Module 2: Data structures: vectors, matrices, lists and data frames: R and R Studio: Vectors and assignment, Vector arithmetic, generating regular sequences, Logical vectors, Missing values, Character vectors, Index vectors; selecting and modifying subsets of a data set, Other types of objects.

Arrays, Array indexing. Subsections of an array, Index matrices, The array () function, Mixed vector and array arithmetic. The recycling rule, The outer product of two arrays, Generalized transpose of an array, Matrix facilities, Matrix multiplication, Linear equations and inversion, Eigenvalues and eigenvectors, Singular value decomposition and determinants,

Module 3: Reading data into R & basic statistics: The read.table () function, the scan () function, Accessing built in datasets, Loading data from other R packages, Editing data. Descriptive statistics: Categorical variables, continuous variables, checking normality, outliers checking. Choosing the right statistics: Overview of different statistical techniques, Decision making process. Correlation: Pearson product moment correlation, Spearman rank correlation, Partial correlation,

Unit 4: Statistical modelling functions: Im and glm-R: Defining statistical models; formulae, Contrasts, Linear models, Simple linear regression, Multiple Linear Regression: Assumptions, overall significance, multicollinearity, Variable selection methods.

Generic functions for extracting model information, Analysis of variance and model comparison, ANOVA tables, Updating fitted models, Generalized linear models, Families, The glm() function, Nonlinear least squares and maximum likelihood models, Least squares, Maximum likelihood, Some non-standard models

Books for reference:

Rakshit S., R for Beginners, Tata Mc-Graw Hill (Latest Edition)

6. Examination scheme

Assignment and examination (written and practical)

7. Fees

This course is targeted to the students for skill up gradation only, hence no fees.

8. Registration Process

Total intake will be 30 only by first come first serve basis.

9. Date of Commencement: 23.10.2023

10. Schedule / Class routine

Time: 4:30-5:30

11. Contact Person information

VALUE ADDED COURSE PROPOSAL ON HUMAN RIGHTS OF DISADVANTAGED GROUP

About the Course:

Human rights are universal and inalienable entitlements that belong to every individual, regardless of their social status, gender, race, or religion. However, some groups in society face disadvantages that limit their access to these rights, including but not limited to people living in poverty, refugees, migrants, and people with disabilities. The realization of human rights for disadvantaged groups requires a multifaceted approach that addresses both the structural and individual barriers that hinder their access to these rights. Such an approach should involve advocacy and education to raise awareness of the importance of human rights, legislative and policy reform to address discrimination and inequality, and targeted measures to address the specific needs of disadvantaged groups. Efforts to promote and protect human rights for disadvantaged groups should be guided by the principles of non-discrimination, equality, and participation. This involves ensuring that members of these groups have equal access to education, healthcare, housing, employment, and other basic needs. It also involves empowering these groups to participate fully in decision-making processes that affect their lives.

Objective of the Course

The objective of reading about human rights of disadvantaged groups is to gain a deeper understanding of the challenges that these groups face in accessing their basic human rights, such as the right to education, healthcare, housing, and employment. By learning about the systemic and individual barriers that prevent disadvantaged groups from enjoying their human rights, readers can become more aware of the importance of promoting and protecting human rights for all members of society, and can advocate for policies and practices that promote equality and non-discrimination. Additionally, by reading about the experiences of disadvantaged groups, readers can develop empathy and understanding, which can lead to greater social cohesion and solidarity.

Course Outcome:

- 1. Develop a comprehensive understanding of the concept of human rights and the principles that guide their promotion and protection.
- 2. Identify the social, economic, cultural, and political factors that contribute to the marginalization and exclusion of disadvantaged groups.

- 3. Understand the impact of discrimination, inequality, and poverty on the realization of human rights for disadvantaged groups.
- 4. Understand the role of governmental and non-governmental organizations in promoting and protecting the human rights of disadvantaged groups.
- 5. Develop an ethical and critical perspective on human rights and social justice issues, and apply this perspective to real-world situations facing disadvantaged groups.

Duration of the Course: 30 Hour

Course Details (Module)

1. Module 1: Rights of Women and Children

- 1.1. Women and the Law: International Norms
- 1.2. Constitution and Special Laws in India for the Protection of Women
- 1.3. Gender Injustice and its Various Forms
- 1.4. Children and the Law: International Norms

DR. SYED FARAZ AKHTAR

Rights of Aged and Disabled Persons in India

India's legal framework and societal efforts to support aged and disabled persons are multi-faceted, encompassing constitutional provisions, special laws, affirmative action's, and the active involvement of the judiciary and non-governmental organizations (NGOs).

Constitutional Provisions

1. Equality and Non-Discrimination:

- Article 14: Guarantees equality before the law and equal protection of the laws to all individuals, including aged and disabled persons.
- Article 15(1): Prohibits discrimination on the grounds of religion, race, caste, sex, or place of birth.
- Article 15(3): Empowers the state to make special provisions for women and children, which can extend to aged and disabled women and children.

2. Right to Life and Personal Liberty:

• Article 21: Ensures the right to life and personal liberty, interpreted by the judiciary to include the right to live with dignity, which is particularly relevant for aged and disabled persons.

3. Directive Principles of State Policy:

- Article 41: Directs the state to make effective provisions for securing the right to work, education, and public assistance in cases of unemployment, old age, sickness, and disablement.
- Article 46: Mandates the promotion of educational and economic interests of weaker sections, including aged and disabled persons.

Special Laws

1. Maintenance and Welfare of Parents and Senior Citizens Act, 2007:

- Provides a legal framework for the maintenance and welfare of parents and senior citizens, ensuring that children and heirs provide financial support and care.
- Establishes tribunals to resolve disputes and mandates the state to establish old age homes.

2. Rights of Persons with Disabilities Act, 2016:

- Replaces the Persons with Disabilities (Equal Opportunities, Protection of Rights and Full Participation) Act, 1995.
- Expands the categories of disabilities recognized and enhances the rights and entitlements of persons with disabilities.
- Mandates accessibility in public buildings, education, employment, and social security.

3. The National Trust for the Welfare of Persons with Autism, Cerebral Palsy, Mental Retardation, and Multiple Disabilities Act, 1999:

- Aims to enable persons with disabilities to live independently by providing support and protection.
- Establishes the National Trust, which focuses on creating a conducive environment for the development of persons with severe disabilities.

Special Protection through Reservations

1. Employment:

• Reservation in Government Jobs: Persons with disabilities are entitled to a 4% reservation in government jobs under the Rights of Persons with Disabilities Act, 2016.

2. Education:

• Reservation in Educational Institutions: A certain percentage of seats are reserved for disabled persons in government and government-aided educational institutions.

3. Public Facilities:

• Accessible Infrastructure: The law mandates the creation of barrier-free environments in public buildings and transportation systems to ensure accessibility for persons with disabilities.

Role of Judiciary

The judiciary has played a proactive role in upholding and expanding the rights of aged and disabled persons. Some landmark judgments include:

1. Vishaka v. State of Rajasthan (1997):

• Although primarily focused on sexual harassment, this case established the principle that international conventions can be read into domestic laws, including conventions protecting the rights of disabled persons.

2. Jeeja Ghosh & Anr. v. Union of India & Ors. (2016):

• The Supreme Court emphasized the need for sensitivity towards persons with disabilities and mandated airlines to adopt more inclusive practices.

3. Justice K.S. Puttaswamy (Retd.) v. Union of India (2017):

• Recognized the right to privacy as a fundamental right, which includes the privacy and dignity of aged and disabled persons.

Role of NGOs

NGOs play a crucial role in advocating for the rights of aged and disabled persons by:

1. Advocacy and Awareness:

• NGOs like Help Age India, National Association for the Blind (NAB), and the Disability Rights Group work tirelessly to raise awareness about the rights and needs of aged and disabled persons.

2. Service Provision:

• NGOs provide essential services, including healthcare, legal aid, and educational support. For example, the Amar Jyoti Charitable Trust offers integrated education for disabled and non-disabled children.

3. Policy Influence:

• NGOs actively participate in policy-making processes by providing research, data, and recommendations to the government. They also monitor the implementation of laws and policies, ensuring accountability.

4. Community Support:

• NGOs create support networks and self-help groups that empower aged and disabled persons to live independently and with dignity.

India has made significant strides in recognizing and safeguarding the rights of aged and disabled persons through a comprehensive legal framework and supportive policies. The combined efforts of the government, judiciary, and NGOs are crucial in ensuring that these individuals can lead fulfilling and dignified lives. However, ongoing vigilance and advocacy are necessary to address emerging challenges and ensure the full realization of their rights.

VALUE ADDED COURSE PROPOSAL
ON
LEGAL AID AND ALLIED LAW IN INDIA

About the Course:

Legal aid refers to the provision of free or low-cost legal services to individuals who cannot afford to pay for legal representation. It is intended to ensure that everyone has equal access to justice, regardless of their financial situation. Legal aid can include services such as legal advice, representation in court, and assistance with legal documents. It plays an important role in promoting fairness and justice in society, and is often provided by non-profit organizations or government agencies. At the same time allied law refers to the various laws and regulations that are related to a particular field or industry in India. For example, in the healthcare industry, allied laws would include regulations related to medical ethics, pharmaceuticals, clinical trials, and medical devices. In the education industry, allied laws would include regulations related to accreditation, student rights, and academic standards. These laws are important to ensure that industries operate within legal boundaries and uphold ethical standards, and can be enforced through regulatory bodies such as the Medical Council of India or the University Grants Commission.

Objective of the Course

The objective of reading about legal aid and allied law is to gain an understanding of the legal system in India and how it works to provide access to justice for all individuals, regardless of their financial situation. Legal aid is an important aspect of ensuring fairness and equality in society, while allied law helps regulate different industries and promote ethical practices. By learning about legal aid and allied law, individuals can understand their legal rights and responsibilities, and how to seek legal help if necessary. It also helps to promote awareness and understanding of legal issues in society.

Course Outcome:

- 1. Understand the concept and importance of legal aid in promoting access to justice for all individuals, especially those who are economically disadvantaged or marginalized.
- 2. Identify the different types of legal aid services available in India, such as legal advice, representation, and assistance with legal documents, and understand how to access these services.

- 3. Understand the legal rights and responsibilities of individuals and organizations, and how these are affected by different laws and regulations.
- 4. Develop critical thinking and analytical skills through evaluating and comparing different legal arguments and perspectives.
- 5. Develop an appreciation for the role of law in society and the importance of upholding the rule of law for promoting justice, fairness, and equality.

Duration of the Course: 30 Hour

Course Details (Module)

1. Module 1: Legal Aid in India

SAMPLE STUDY NOTES

LEGAL AID

- 1. Concept: The legal aid means providing an arrangement in the society so that the missionary of administration of justice becomes easily accessible. Therefore, legal aid is to be made available to the poor and needy by providing a system of government funding for those who cannot afford the cost of litigation.
- 2. Constitutional and Legal Provisions: Legal aid is a constitutional right supported by Articles----
 - Article 21 of the Indian Constitution states that no person shall be deprived of his life or personal liberty except according to procedure established by law.
 - Article 39-A directs the State to ensure that the operation of the legal system promotes
 justice on a basis of equal opportunities, and shall in particular, provide free legal aid,
 by suitable legislation or schemes or in any other way, to ensure that opportunities for
 securing justice are not denied to any citizen by reason of economic or other disabilities.

Universal Declaration of Human Rights, 1948

• Article 11(1): Everyone charged with a penal offence has the right to be presumed innocent until proved guilty according to law in a public trial at which he has all the guarantees necessary for his defence.

International Covenant on Civil and Political Rights, 1966

- Article 14(2): Everyone charged with a criminal offence shall have the right to be presumed innocent until proved guilty according to law.
- Article 14(3): In the determination of any criminal charge against him, everyone shall be entitled to the following minimum guarantees, in full equality.

The European Convention for the Protection of Human Rights and Fundamental Freedoms, 1950

• Article 6: Right to Fair Trial.

Criminal Procedure Code:

• Section 304(1) states that when the accused faces a trial. Under the legal services authority, the definition of the free legal aid scheme. The act is only when the accused faces trial in court. If a person is bad VV, then he can get legal assistance. The entire trial is vitiated in the absence of a lawyer and then the case is returned to the trial court. Court to ask the accused if he has Services for engaging or not engaging a lawyer. If not, the court is expected to provide him with a lawyer from the bar, who needs to be well versed in the law and be compensated by St. Govt. A lawyer cannot be sympathised with by the court.

Code of Civil Procedure Code:

- Order 33, rule 17, CPC- A suit by an indigent person or against him. If a complaint along with the petition is deprived of using a lawyer's services, so the court exempts him from court fees.
- 3. Landmark Cases Generating Legal Aid Movement in India
 - M.H. Hoskot v. State of Maharashtra: The Supreme Court laid down some banning prescription for free legal aid to prisoners which are to be followed by all courts in India.

- Khatri (II) v. State of Bihar: The Court ruled that: "The Magistrate or the Sessions Judge before whom an accused appears must be held to be under an obligation to inform the accused that if he is unable to engage the services of a lawyer on account of poverty and indigence, he is entitled to obtain free legal aid at the cost of the State.
- Hussainara Khatoon v. State of Bihar: That: "Now, a procedure which does not make
 available legal services to an accused person who is too poor to afford a lawyer and
 who would, therefore, have to go through the trial without legal assistance, cannot
 possibly be regarded as reasonable, fair and just."

PUBLIC INTEREST LITIGATION

- 1. Concept and Meaning: Public interest Litigation (PIL) means litigation filed in a court of law, for the protection of "Public Interest". Any matter where the interest of the public at large is affected can be redressed by filing a Public Interest Litigation in a court of law such as Pollution, Terrorism, Road safety, Construction hazards, etc.
- 2. Procedure to File PIL in India

Any Indian citizen or organisation can move the court for a public interest/cause by filing a petition:

- 1. In the SC under Article 32
- 2. In the High Courts under Article 226

The court can treat a letter as a writ petition and take action on it. The court has to be satisfied that the writ petition complies with the following: the letter is addressed by the aggrieved person or a public-spirited individual or a social action group for the enforcement of legal or constitutional rights to any person who, upon poverty or disability, are not able to approach the court for redress. The court can also take action based on newspaper reports if it is satisfied with the case.

- 3. Significance of Public Interest Litigation: The original purpose of PILs has been to make justice accessible to the poor and the marginalized.
- It is an important tool to make human rights reach those who have been denied rights.
- It democratizes access to justice for all. Any citizen/agency who is capable can file petitions on behalf of those who cannot or do not have the means to do so.
- It helps in judicially monitoring state institutions like prisons, asylums, protective homes, etc.
- It is an important tool in judicial review.
- 4. Locus Standi and PIL: The doctrine of locus standi is an old doctrine. According to the doctrine of locus standi, a person who is stranger to a disputed matter cannot be allowed to interfere in the judicial proceedings. Only a person whose legal right has been violated, that is the aggrieved person against whom a decision has been pronounced, is allowed to bring an action in the court. In the case of Shanti Kumar vs Home Insurance Co (1975), the Supreme Court of India had observed that the term "aggrieved person" does not mean a person who has suffered any imaginary injury but it means that the rights of the person have been violated adversely in reality. It means the injury must be physical, mental, monetary, etc. and not mere an imagination.

The concept of PIL was introduced in India to ensure that justice is accessible to every citizen of the country, irrespective of their socio-economic status. It allows any person or organisation to raise issues that require immediate attention and provide legal remedies for them. This means that any person, whether rich or poor, can approach the courts to protect the interests of the public at large, even if they do not have a direct personal interest in the matter. The meaning of

public interest litigation is quite broad and encompasses a wide range of issues. PIL can be filed in matters related to pollution, environmental degradation, public health, human rights, consumer protection, women's rights, and many other issues that affect the common people. The significant advantage of PIL is that it provides a platform for citizens to participate in the legal system and engage with issues that are important to them. PIL has helped to create awareness among the public about their rights and encouraged them to participate in the legal system to seek justice

RIGHT TO INFORMATION ACT

1. **MEAQNING AND DEFINITION:** - The Right to Information Act, 2005 is a crucial law established by the Parliament in 2005 under the democratic principles of transparency, accountability and trust. It has provided citizens with a path towards a more active participation in a democratic country like India.

According to the RTI Act, any Indian citizen has the authority to request information from an entity, which is accountable to furnish the requested details within a timeframe. The legislation encompasses public authorities and control of public authorities.

According to Sec 2(j) "right to information" means the right to information accessible under this Act which is held by or under the control of any public authority and includes the right to

- (i) inspection of work, documents, records;
- (ii) taking notes, extracts or certified copies of documents or records;
- (iii) taking certified samples of material;
- (iv) obtaining information in the form of diskettes, floppies, tapes, video

cassettes or in any other electronic mode or through printouts where such information is stored in a computer or in any other device.

2. REQUEST FOR OBTAINING INFORMATION [Sec. 6]

First, you must know which department you want to file your Right to Information Act, 2005 application. You can do a quick research about the same. • Now visit their website http://rtionline.gov.in and click to register yourself. Once you are registered start your application process by clicking on "Submit Request" button on home page. • Before starting your application, you must go through and understand the guidelines related to Right to Information Act and acknowledge it by digitally signing the form. Once you are through with acknowledgement of the form, you can start filing your application on next page. • While filling the form, first of you must choose the department which must cater to your request, then you must fill in your personal details like email id and phone number. Then you must submit the subject line for your Right to Information Act application which must brief about the context for your RTI request you are raising. You can then elaborate your application within a limit of 3000 words. You must keep it clear and simple and mention what you are seeking from that department like dates and status. You should not use decorative words in your application which are difficult to understand.

3. LANDMARK JUDGMENTS

R. Rajagopal & Anr. v. State of Tamil Nadu

The respondents were claiming the Right to Privacy of the prisoner but it was stipulated that for information already present in the government will be the textbook definition of a Public Record. The Right to Privacy can only be evoked in rare cases in such circumstances. This was stipulated to be similar to Section 8(1)(j) as it does not protect information that is of public interest. It further states certain information not being disclosed for it has the capacity to invade a person's privacy. However, the judgment also stated that public officials Right to Privacy cannot be invoked in respect of their duties in that capacity.

Union of India v. Association for Democratic Reform

Union of India After the Union of India filed an appeal in the Supreme Court, it ordered the Election Commission to formulate necessary orders to require all candidates to furnish information on the following aspects of their background:

- 1. Criminal charges and convictions
- 2. Pending cases where the candidate is an accused
- 3. All assets including those of her spouse
- 4. All liabilities
- 5. Educational qualifications
- 6. Association for Democratic Reforms

LEGAL AID AND ALLIED LAW IN INDIA

MCQ TEST

1.	What is the primary goal of Legal Aid
	Mark only one oval.
	To provide legal representation to those who can not afford it To engaged the fresh lawyer in legal aid. To fund legal research To regulate legal Practitioner

Date: 27/11/2023

CIRCULAR

This is to inform you that Electrical Engineering Department is going to organize a value added course on 'Application of PLC in Industry for Automation'. The course duration will be of approximately 36 hours. Interested students can register their names to the Administrative Officer, Centre of Advance Studies, ICFAI University, Tripura on or before 02/01/2024. The course will initiate from 17/01//2024.

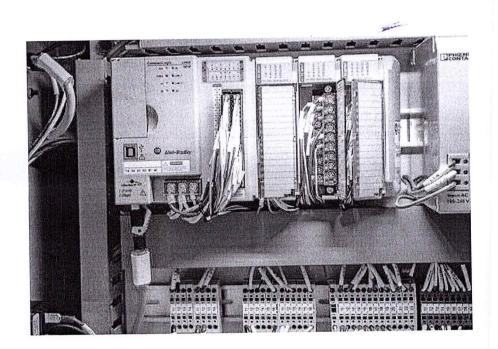

HoD, EE Department ICFAI University Tripura

Registrar, Topura ICFAI University Kamalghal, Tripura (West)

The ICFAI University, Tripura
(Established under Section 4(2) of The Institute of Chartered Financial Analysts of India University, Tripura Act 2004)

Value Added Course 'Application of PLC in Industry for Automation'

> About the Department

The department of Electrical Engineering was established in the year 2022 and emerged as one of the major department in ICFAI University Tripura. Since its inception, the Department has been actively engaged in teaching and research activity in diverse fields of Electrical Engineering. The Department of Electrical Engineering offers 8- semester undergraduate (B. Tech) and (Ph. D) programmes. The department has well qualified faculties and well equipped laboratories.

> Scope & Objective of the Course

Automation is playing a key role in Industries. Industries rely heavily on automation for economic viability and mass production. It is important for the students to learn basic of automation, how system works and importance of PLC in controlling drives for automation. This course will provide opportunity to learn industrial automation techniques.

> Outcome of the Course

At the end of the course, student will able to:

- To define automation, its importance, expectations from automation and applications in industry.
- To understand working of PLC, I/O modules of PLC, Programming languages and instructions of PLC
- Learning ladder program
- Design PLC based application by proper selection and sizing criteria, developing GUI and ladder program.
- To understand evolution and architecture of DCS, hierarchical control in DCS, programming DCS through Function Block Diagram (FBD) method.
- To understand automated measurement of industrial parameters like temperature, pressure, force, displacement, speed, flow, level, humidity and pH.
 - > Duration of the Course:35.8Hours
 - Course Details

Module 1: Introduction

Automation overview, Requirement of automation systems, Architecture of Industrial Automation system, Introduction of PLC. Industrial bus systems: modbus & profibus.

Module 2: Automation components

Sensors for temperature, pressure, force, displacement, speed, flow, level, humidity and pH measurement. Actuators, process control valves, power electronics devices DIAC, TRIAC, power MOSFET and IGBT. Introduction to DC and AC servo drives for motion control.

Module 3: Programmable logic controllers

Programmable logic controllers, Analog digital input and output modules, PLC programming, Ladder diagram, Sequential flow chart, PLC Communication and networking, PLC selection, PLC Installation, Advantage of using PLC for Industrial automation, Application of PLC to process control industries.

Module 4: Distributed Control System

Overview of DCS, DCS software configuration, DCS communication, DCS Supervisory Computer Tasks, DCS integration with PLC and Computers, Features of DCS, Advantages of DCS.

> Schedule

EveryWeek:

Tuesday (3:40PM - 4:30PM) (Except Holidays)

Wednesday (11:05PM - 11:55PM) (Except Holidays)

Friday (9:15AM - 10:05AM) (Except Holidays)

> Registration Process

To register, please contact with Administrative Officer Centre for Advanced Studies, ICFAI University Tripura

> Date of Commencement: 17.01.24

> End Date: 26.04.24

> Reference Books

- Drives and Control for Industrial Automation, Authors: Tan, Kok Kiong, Putra, Andi Sudjana, ISBN 978-1-84882-425-6.
- Electrical Machines And Drives, Authors: Melkebeek, Jan, ISBN 978-3-319-72730-1

NOTICE

Academic Year: 2023-2024

(Value Added Course)

All the students of ICFAI University Tripura are hereby informed that the Department of Electronics & Communication Engineering is going to offer a Value Added Course on Introduction to Different Software Simulation and Programming Execution from 12.10.2023. In this regard all the interested students are asked to register their name for the course at Department office by 09.10.2023.

Value added Course

On

Introduction to Different Software Simulation And Programming

(Academic Year- 2023-2024)

> About the University:

The ICFAI University, Tripura (referred to hereafter as the University) was established in 2004 through an Act of State Legislature (Tripura Act 8 of 2004). The University has been approved by the University Grants Commission, under Section 2(f) of the UGC Act, 1956.

The University campus based at Agartala is a lush green campus spread over 32 acres at Kamalghat Sadar, Tripura. It has over 6 lakhs sq. ft. of built-up area with academic blocks, workshops, laboratories, faculty rooms, auditorium, seminar halls, and computer labs with latest computing facility, well equipped library, canteen, sports and recreation facilities. The campus also provides latest teaching aids and is Wi-Fi enabled. The University is being widely recognized as an institution devoted to quality research and teaching. The University gives utmost importance to Industry-University interface.

> About the Course:

- 1. This course provides an in-depth exploration of various software simulation and programming tools widely used in different industries.
- 2. It covers fundamental concepts, practical applications, and hands-on experiences with several simulation platforms and programming languages.
- 3. Students will learn how to model, simulate, and analyze real-world systems and scenarios, enhancing their problem-solving skills and technical expertise.
- 4. Component introduction and their categories

Outcome of the Course:

At the end of the course, the students will be able to

- 1. Develop and validate simulation models for complex systems.
- 2. Efficiently use various simulation software to conduct experiments and interpret results.
- 3. Write and debug code for simulation models using multiple programming languages.
- 4. Analyze simulation outputs to draw meaningful conclusions and make recommendations.

> Duration of the Course: 30 Hours

Course Syllabus:

Module 1 – Introduction to Simulation and Programming: Overview of simulation concepts, Introduction to programming for simulations, Historical development and current trends

Module 2 – Discrete Event Simulation: Basics of discrete event simulation, Modeling techniques and tools (e.g., Arena), Case studies and applications

Module 3 – Continuous Simulation: Fundamentals of continuous simulation, Using tools like MATLAB and Simulink, Practical applications in engineering and sciences

Module 4 – Monte Carlo Simulation: Understanding randomness and probabilistic models, Implementing Monte Carlo simulations in Python and R, Examples and real-world applications

Module 5 – Agent-Based Modeling: Introduction to agent-based models, Software tools such as Any Logic. Application to social and economic systems

Module 6 – Programming for Simulation: Programming basics in Python and MATLAB, Writing and debugging simulation code, advanced programming techniques

Module 7 – Simulation in Engineering: Application of simulation in various engineering fields, Case studies in mechanical, electrical, and civil engineering

> Reference Books:

- 1. "Simulation Modeling and Analysis" by Averill M. Law
- 2. "Discrete-Event System Simulation" by Jerry Banks, John S. Carson II, Barry L. Nelson, and David M. Nicol
- 3. "Simulation with Arena" by W. David Kelton, Randall P. Sadowski, and Nancy B. Zupick.
- 4. "Introduction to Simulation Using Simulink" by Michael A. Rounds.
- 5. "Mathematical Modeling and Simulation: Introduction for Scientists and Engineers" by Kai Velten
- 6. "Python for Data Analysis: Data Wrangling with Pandas, NumPy, and IPython" by Wes McKinney
- 7. "Monte Carlo Simulation and Finance" by Don L. McLeish.

> Evaluation Scheme:

Viva-voce

> Fees:

No fees for the Students.

> Schedule of classes:

Monday to Friday, Everyday 2 hours

> Registration Process:

To register please contact FST Office Faculty of Science and Technology ICFAI University, Tripura

Course In-charge:
Dr. Tapan Kumar Mohanta
Assistance Professor

Date: 11.09.2023

Minutes of Meeting and Resolutions Board of Studies Faculty of Science & Technology, ICFAI Technical School Department of Electronics & Communication Engineering

Introduction:

A meeting of Board of Studies, ECE, ITS, FST, ICFAI University, Tripura was held on 07.09.2023 (Thursday) at 3:00 pm through online mode. Prof. (Dr.) Prasanta Kumar Sinha, Professor & Principal, ICFAI Technical School, Faculty of Science and Technology chaired the meeting.

Following members were present at the meeting:

- 1. Dr. Bijoy Kumar Upadhyaya, Professor, Tripura Institute of Technology, Agartala (External Member)
- 2. Dr. Arup Sinha, Senior Vice President & Competency Head (Utility), Virtuoso Technologies & Consulting Pvt. Ltd (External Member)
- 3. Dr. Arindam Banerjee, Associate Professor & HOD, ECE, IUT (Member Secretary)
- 4. Prof. Dhriti Rudrapal, Assistant Professor, ECE, IUT (Internal Member)
- 5. Prof. Tapan Kumar Mohanta, Assistant Professor, ECE, IUT (Internal Member)
- 6. Prof. Debarshita Biswas, Assistant Professor, ECE, IUT (Internal Member)

Agenda:

The agenda deliberated were discussed and following resolutions were passed:

Item	Particulars
No.	
1	Consideration of Action Taken Report for approval of the previously held meeting on 12.01.2023.
	The action taken report of last BOS meeting held on 12.01.2023 was discussed after the approval from Academic Council Meeting held on 24.01.2023.
	Resolutions:

	The Action Taken Report of the previously held meeting on 12.01.2023 was approved by all
	the members.
2	Agenda: Inclusion of Corporate Recruitment Training (CRT) courses in B. Tech ECE curriculum
	Resolutions:
	The inclusion of Corporate Recruitment Training (CRT) courses in the curriculum of B. Tech
	ECE Second, Third and Fourth year (Odd and Even Semesters) as credit courses with 02 unit credit
5-	was appreciated by the external board members. After observing the syllabus of the CRT courses, Dr.
	Arup Sinha suggested to conduct mock interview session to the students and if possible, some external faculty members from other institutes or industries might be invited in front of whom the students could
	perform the mock interview session.
3	Agenda: Inclusion of "Theme Projects" courses in B. Tech, ECE curriculum
	Resolutions:
	The inclusion of "Theme Projects" courses in the curriculum of B. Tech ECE First, Second
	and Third year (both Odd and Even Semesters) as credit courses was appreciated by the external board
	members. Dr. Arup Sinha suggested to assign software based projects apart from hardware based
	projects especially to the third year students to enrich the software skill of the students.
4	Agenda: Review of Modified Course Structure for B. Tech ECE
	Resolutions:
	Before the inclusion of the CRT courses and Theme Project courses, the total credit in the B. Tech ECE new curriculum (from 2022-2023 batch onwards) was 160. After the inclusion of the CRT courses and Theme Projects courses, the credit has been increased to 176.
5	Agenda: Course Code Approval of the courses in the B. Tech ECE new curriculum
	Resolutions:
	The course codes of the courses included in the B. Tech ECE new curriculum of 2022-2026
	program structure were assigned and approved by the competent authority of the University.
	The external board members also approved the same.
6	Agenda: Approval for the Value Added Courses
	Resolutions:
	A value added course entitled "Introduction to Different Software Simulation and
	Programming Execution" was proposed to be conducted in this semester. The proposal was
	also highly appreciated by the external board members.

Histories (m/10123 Mossie Barier 11/09/23

7 Agenda: Miscellaneous

Resolutions:

i. Dr. Upadhyaya also suggested to give utmost priority in improving students' communication skill, power point presentation skill, group discussion ability etc. so that they could be ready for the corporate recruitment. In reply, the honorable chair Prof. Dr. Prasanta Kumar Sinha explained the importance of the inclusion of the CRT courses in second, third and fourth year batches. This initiative was appreciated by all the external members.

Finally the meeting was concluded with vote of thanks by the chair.

Ref. No-IUT/ITS/AP/2023-24/D- 3148

Date: 23-04-2024

APPROVAL NOTE

The following courses of B. Tech, ECE, CSE, EE, ME, CE, shown in Table-I, need some modification in respect of lecture and practical compositions.

Curriculum as per 2023-2024 Regulation (Table-I)

Program	Academic Year	Course Name	Course Code	L	P.	U	Sessions
B. Tech 2 nd Year SEM I (ECE, CSE, EE, ME, CE)	A.Y. 2023- 24	Introduction to IoT	ES213	3	0	3	45 Ager
B. Tech 3 rd Year SEM I (ECE)	A.Y. 2023- 24	Digital VLSI Design	ECE306	3	0	3	45
B. Tech 3 rd Year SEM II (ECE)	A.Y. 2023- 24	Embedded Systems	EC435	3	0	3	145

Internet of Things course is common for all the engineering departments (ECE, CSE, EE, ME, CE) and the lab classes need be assigned for that. In the curriculum regulations 2022-2023 and 2023-2024, there were no lab assigned for the above mentioned courses due to the lack of proper laboratories. But in the year 2023, two new labs (VLSI Design Lab and Internet of Things Lab (IoT)) have been set up in the month of September. New equipments and components have been purchased for the two laboratories. All the newly purchased equipments and components are based on the state of the art technologies and efforts have been given to maintain the criteria of Industry 4.0 regulations. It is also important to mention that the laboratory experiments for the Embedded Systems course can be taken with the components of the IoT lab. Therefore, the Department of ECE along with the other engineering departments has now the facilities to execute lab classes for the above mentioned courses. Also it is being observed that only theory classes are not enough for the students to understand the working principle of the state of the art devices. In earlier semester, we had to sacrifice one theory class to take the students to the lab to perform some basic experiments so that they could understand the basics of the components of IoT (Internet of Things).

Therefore, a proposal is being given for the approval of the competent authority to reduce the lecture session by 1 and include 2 practical classes so that the total unit credit is not hampered by keeping track with the modern technological advancement. The proposed modification is

given in Table-II.

Seeking permission for the approval for the change of L-P-U in three existing courses

2 messages

Dr. Arindam Banerjee <arindambanerjee@iutripura.edu.in>

Thu, Apr 25, 2024 at 12:06 PM

To: Halder B <halderb@icfaiuniversity.in>

Respected Sir,

I, Dr. Arindam Banerjee, HOD, ECE, am seeking your permission for the approval for the change of L-P-U in three existing courses, mentioned below, to be run in the upcoming odd and even semesters.

- 1) Introduction to IoT (ES213)
- 2) Digital VLSI Design (ECE306)
- 3) Embedded Systems (EC435)

Among them, the first two courses will be run in the upcoming odd semester and the course "Introduction to IoT" is a common course for all the engineering departments. All these courses were only theory courses as per the 2023-2027 curriculum but now after setting up the two labs (VLSI Design Lab and IoT Lab), we wish to run experiments for all the engineering departments. For all the above-mentioned courses, the L-P-U was 3-0-3 but now after including lab classes the L-P-U becomes 2-2-3 without hampering the unit credit. The relevant approval document is attached herewith for your reference.

Therefore, I will be obliged if you kindly approve the above mentioned changes.

With regards,

Dr. Arindam Banerjee,

Associate Professor and HOD,

Department of Electronics and Communication Engineering,

Faculty of Science and Technology,

ICFAI University, Tripura

Mobile: 6290564216/ 9433279813

ICFAI UNIVERSITY TRIPURA

VALUE-ADDED COURSE
ON
COMPUTER ADDED DESIGN

About the University

The ICFAI University, Tripura (referred to hereafter as the University) was established in 2004 through an Act of State Legislature (Tripura Act 8 of 2004). The University has been approved by the University Grants Commission, under Section 2(f) of the UGC Act, 1956.

The University campus based at Agartala is a lush green campus spread over 32 acres at Kamalghat Sadar, Tripura. It has over 6 lakhs sq. ft. of built-up area with academic blocks, workshops, laboratories, faculty rooms, auditorium, seminar halls, and computer labs with latest computing facility, well equipped library, canteen, sports and recreation facilities. The campus also provides latest teaching aids and is Wi-Fi enabled. The University is being widely recognized as an institution devoted to quality research and teaching. The University gives utmost importance to Industry-University interface.

About the Course

Computer Added Design (CAD) is considered as one of the basic subjects for engineering students of Mechanical Engg. and Civil Engg. An engineer or architect who successfully copes with new problems in the field must have a sound understanding of fundamental techniques of Computer Added Design. The present course is designed to expose the students to a variety of situations that will test their understanding of the subject both at the concepts and analytical levels.

Objective of the course:

- i. To introduce the basic structure of CAD workstation and computer graphics
- ii. To Explain the techniques of geometric modelling to represent parametric curves.
- iii. To develop an ability to use CAD software for developing 2D and 3D models and perform transformations

Course outcomes:

Upon completion of the course students will be able to:

- CO1: Interpret basic structure of CAD workstation, Memory types, input/output devices and display devices and computer graphics. (Understanding)
- CO2: Explain the techniques of geometric modelling to represent parametric curves. (Understanding)
- CO3: Apply the knowledge of geometric modelling and Execute the steps required in CAD software for developing 2D and 3D models and perform transformations. (Application)

> Duration of the Course: 32 Hours

Textbook(s):

- 1. M. P. Groover and Emory W. Zimmers, Jr., "CAD/CAM Computer Aided and Manufacturing", 22nd impression, 2018
- 2. P. Radhakrishan, S. Subramanyan, V. Raju, "CAD/CAM/CIM", New Age International Publishers,3rd edition,2008

Course Details:

Lecture-wise plan

Lecture Nos.	Learning objective	Topics to be covered	Reference (Sec. No. of Text/Ref Books)
1-2	Introduction	Historical Development, Explicit and Implicit Equations, Intrinsic Equations, Parametric Equations, Coordinate Systems.	T1: Ch 1.
3-8	Transformation	Representation of points; Transformation matrix; Transformation of a point; Homogeneous coordinates; General transformation – rotation, reflection, translation, scaling and sharing; Combined transformation; Solid body transformation; Parallel projections – orthographic, axonometric and oblique; Perspective projections – single-point, two-point, three-point and vanishing points.	T1: Ch 3.
9-11	Plane Curves	Curve representation – parametric and nonparametric curves, like circle, ellipse, parabola and hyperbola; Conic sections.	T1: Ch 4.
12-16	Space Curves:	Fundamental of Curve Design, Parametric Space of a Curve, Reparameterization, Representation of space curves; Cubic splines; parabolic blending; Bezier curves; B-spline curves, Rational Polynomials, NURBS.	T1: Ch 6.

17-22	Surface Generation	Fundamental of Surface Design, Parametric Space of a Surface, Reparameterization of a Surface patch, sixteen-point form, Four Curve Form, surfaces of revolution; Sweep surfaces; Quadric surfaces; Bilinear surfaces; Ruled and developable surfaces; Coons linear surfaces; Coons bi-cubic surfaces; Bezier surfaces; B-spline surfaces.	T1: Ch 8.
22-25	Solids	Fundamental of Solid Design, Parametric Space of a Solid; Surface and Curves in a Solid. Solid	T1: Ch 9.
26- 30	Modeling	Topology and Geometry, set theory, Euler Operators, Regularized Boolean Operators, Construction Criteria, Graph Based Models, Instances and Parameterized Shapes, Cell-decomposition and Spatial Occupancy Enumeration, Sweep representation, CGS, BRep, Wireframe Analytical properties, Relational properties and Intersection. Applications in Mechanical Engineering Design.	T1: Ch 9.
31-32	CAD Standards	Standardization of graphics, Graphical kernel system (GKS), other graphic standards, data exchange standards for modelling data.	T1: Ch 10.

> Schedule

- ➤ Monday to Friday (Except Holidays)
- > From 4 PM- 5:00 PM

> Examination Scheme

❖ The students will submit an assignment on weekly basis and 25% marks evaluation for assignment submission. Those students who cleared the assignment by 10% marks are eligible to appear for the final examination.

> Registration Process

Offline register, please contact with

* Dr. Pritam Majumder

> Date of Commencement: 17.07.2023

> End of course date: 13.09.2023

Circular

The department of Mechanical Engineering ICFAI University Tripura, will conduct **value added course** entitled "Computer Added Design" for the benefits of undergraduate student of all disciplines of engineering and science. This course is scheduled from 17th July2023 to 13th September 2023.

Students who will complete the course successfully with pass marks will awarded course completion certificate.

Notice for Examination on Value Added Course "Computer Added Design"

It is hereby notified to all concerned that an examination on "Computer Added Design" will be conducted on 20.09.2023. Based on the performance in this examination, the students will be presented the certificate of completion.

The venue and timings of the exam is given below:

Time: 3-5 PM Date: 20.09.2023

Venue: Room no. 229E, IUT Campus

Guidelines for students:

1. The examination will be of 100 marks with 120 minutes (2 hours) in physical mode.

2. Students should carry University ID card.

3. Students are advised to be in touch with the concerned faculty.

(Dr. Subodh Debbarma)

ICFAI UNIVERSITY TRIPURA

VALUE-ADDED COURSE ON E-VEHICLES

About the University

The ICFAI University, Tripura (referred to hereafter as the University) was established in 2004 through an Act of State Legislature (Tripura Act 8 of 2004). The University has been approved by the University Grants Commission, under Section 2(f) of the UGC Act, 1956.

The University campus based at Agartala is a lush green campus spread over 32 acres at Kamalghat Sadar, Tripura. It has over 6 lakhs sq. ft. of built-up area with academic blocks, workshops, laboratories, faculty rooms, auditorium, seminar halls, and computer labs with latest computing facility, well equipped library, canteen, sports and recreation facilities. The campus also provides latest teaching aids and is Wi-Fi enabled. The University is being widely recognized as an institution devoted to quality research and teaching. The University gives utmost importance to Industry-University interface.

About the Course

The aim of this course is to introduce configurations of EV and HEVs. It designs electric vehicle & HEV for various applications. It also helps to select appropriate motor and converter for EV applications. It properly selects battery, battery indication system for EV applications as well as develop battery charger for an EV

Course outcomes:

Upon completion of the course students will be able to:

CO1: Identify EV concepts, EV configurations and various EV parameters for better understanding of the EV technology

CO2: Analyse the EV propulsion system and electric motors for vehicular applications & power electronics converters required for their control.

CO3: Analyse DC motor & induction motor drives and discuss methods for controlling them

CO4: Elaborate various hybrid electric vehicle configurations and explain the power flow control in all HEV configurations

CO5: Identify different energy sources used in EV and analyse the various methods used in charging these energy sources.

> Duration of the Course: 32 Hours

Textbook(s):

- 1. C.C Chan, K.T Chau: Modern Electric Vehicle Technology, Oxford University Press Inc., New York 2001
- 2. Iqbal Hussein, Electric and Hybrid Vehicles: Design Fundamentals, CRC Press, 2003.
- 3. Mehrdad Ehsani, Yimi Gao, Sebastian E. Gay, Ali Emadi, Modern Electric, Hybrid Electric and Fuel Cell Vehicles: Fundamentals, Theory and Design, CRC Press, 2004

Course Details:

Lecture-wise plan

Lecture Nos.	Learning objective	Topics to be covered	Reference (Sec. No. of Text /Ref Books)
1-4	Introduction	Past, Present & Future of EV, Current Major Issues, Recent Development Trends, EV Concept, Key EV Technology, State-of-the Art EVs & HEVs, Comparison of EV Vs IC Engine. EV System: EV Configuration: Fixed & variable gearing, single & multiple motor drive, In-wheel drives EV Parameters: Weight, size, force, energy & performance parameters.	T1: Ch 1.
4-9	EV Propulsion- Electric Motor	Choice of electric propulsion system, block diagram of EV propulsion system, concept of EV Motors, single motor and multi-motor configurations, fixed & variable geared transmission, In wheel motor configuration, classification of EV motors, Electric motors used in current vehicle applications, Recent EV Motors, Comparison of Electire Motors for EV applications.	T1: Ch 2.

10-14	Required Power Electronics & Control	Comparison of EV power devices, introduction to power electronics converter, four quadrant DC chopper, three-phase full bridge voltage-fed inverter, soft-switching EV converters, comparison of hard-switching and soft-switching converter, three-phase voltage-fed resonance dc link inverter, Basics of Microcontroller & Control Strategies	T1: Ch3.
15-19	Basics of Vehicle Dynamics	History, vehicle classifications, fundamental approaches to vehicle dynamics modelling; SAE Vehicle axis system, Forces & moments affecting vehicle, Earth Fixed coordinate system, Dynamic axle loads, Equations of motion, transmission characteristics, vehicle performance, Brake proportioning, braking efficiency.	T1: Ch 6.
20-22	Acceleration Performance	Power train components; power and traction limited acceleration; transverse weight shift; front wheel drive vs rear wheel drive vs. all-wheel drive vehicles	T1: Ch 7.
23-25	Braking Performance:	Braking force analysis; brake design and analysis; federal regulation on braking performance; antilock braking system; wheel lock-up; tire/road friction; safety and maintenance issues in braking	T1: Ch 8.

26- 29	Road Loads and Tire Dynamics	Wind drag and car body design, rolling resistance; breakdowns of total road loads; gas mileage analysis and driving styles; Aerodynamics. Tire specifications and constructions; tire motion analysis; tire force analysis; tire contact stress analysis; tire vibration analysis; tire models.	T1: Ch 9.
30-32	Chassis and Suspension Systems	Suspension Kinematics, Suspension types, Solid Axles, Independent Suspensions, Anti-Squat and AntiPitch Suspension Geometry, Anti-Dive Suspension Geometry, Roll Center Analysis, Suspension Dynamics, Multi-body vibration, Body and Wheel hop modes, Invariant points, Controllable Suspension Elements: Active, Semi-Active. Choice of suspension spring rate, Calculation of effective spring rate, Vehicle suspension in fore and apt directions.	T1: Ch 11

> Schedule

HOD HOD Mechanical Engineering Mechanical Engineering The ICFAI University, Tripura.

Established under section 4(2) of the Institute of Chartered Financial Analysts of India University, Tripura Act. 2004 Campus Address: Kamalghat (Near Agartala), PIN - 799210, Tel: 0381-2865752/62, Fax: 0381-2865754 Website: www.iutripura.edu.in, Email: registrar@iutripura.edu.in

Date: 13.11.2023

Circular

The department of Mechanical Engineering ICFAI University Tripura, will conduct **value added course** entitled "E-Vehicle" for the benefits of undergraduate student of all disciplines of engineering and science. This course is scheduled from 13th November 2023 to 19th January 2024.

Students who will complete the course successfully with pass marks will awarded course completion certificate.

(Dr. Subodh Debbarma)

HOD

Department of Mechanical Engineering

Course Code	Course Title	L	P	U
	E-Vehicles (EV)	2	0	2

Scope and objective of Course:

The objective of this course is to introduce configurations of EV and HEVs. It designs electric vehicle & HEV for various applications. It also helps to select appropriate motor and converter for EV applications. It properly selects battery, battery indication system for EV applications as well as develop battery charger for an EV

Course outcomes:

Upon completion of the course students will be able to:

CO1: Identify EV concepts, EV configurations and various EV parameters for better understanding of the EV technology

CO2: Analyse the EV propulsion system and electric motors for vehicular applications & power electronics converters required for their control.

CO3: Analyse DC motor & induction motor drives and discuss methods for controlling them

CO4: Elaborate various hybrid electric vehicle configurations and explain the power flow control in all HEV configurations

CO5: Identify different energy sources used in EV and analyse the various methods used in charging these energy sources.

Textbook(s):

- 1. C.C Chan, K.T Chau: Modern Electric Vehicle Technology, Oxford University Press Inc., New York 2001
- 2. Iqbal Hussein, Electric and Hybrid Vehicles: Design Fundamentals, CRC Press, 2003.
- 3. Mehrdad Ehsani, Yimi Gao, Sebastian E. Gay, Ali Emadi, Modern Electric, Hybrid Electric and Fuel Cell Vehicles: Fundamentals, Theory and Design, CRC Press, 2004

Lecture-wise plan:

Lecture Nos.	Learning objective	Topics to be covered	Reference (Sec. No. of Text /Ref Books)
1-4	Introduction	Past, Present & Future of EV, Current Major Issues, Recent Development Trends, EV Concept, Key EV Technology, State-of-the Art EVs & HEVs, Comparison of EV Vs IC Engine. EV System: EV Configuration: Fixed & variable gearing, single & multiple motor drive, In-wheel drives EV Parameters: Weight, size, force, energy & performance parameters.	T1: Ch 1.

4-9	EV Propulsion- Electric Motor	Choice of electric propulsion system, block diagram of EV propulsion system, concept of EV Motors, single motor and multi-motor configurations, fixed & variable geared transmission, In wheel motor configuration, classification of EV motors, Electric motors used in current vehicle applications, Recent EV Motors, Comparison of Electric Motors for EV applications.	T1: Ch 2.
10-14	Required Power Electronics & Control	Comparison of EV power devices, introduction to power electronics converter, four quadrant DC chopper, three-phase full bridge voltage-fed inverter, soft-switching EV converters, comparison of hard-switching and soft-switching converter, three-phase voltage-fed resonance dc link inverter, Basics of Microcontroller & Control Strategies	T1: Ch3.
15-19	Basics of Vehicle Dynamics	History, vehicle classifications, fundamental approaches to vehicle dynamics modelling; SAE Vehicle axis system, Forces & moments affecting vehicle, Earth Fixed coordinate system, Dynamic axle loads, Equations of motion, transmission characteristics, vehicle performance, Brake proportioning, braking efficiency.	T1: Ch 6.
20-22	Acceleration Performance	Power train components; power and traction limited acceleration; transverse weight shift; front wheel drive vs rear wheel drive vs. all-wheel drive vehicles	T1: Ch 7.
23-25	Braking Performance:	Braking force analysis; brake design and analysis; federal regulation on braking performance; antilock braking system; wheel lock-up; tire/road friction; safety and maintenance issues in braking	T1: Ch 8.

26- 29	Road Loads and Tire Dynamics	Wind drag and car body design, rolling resistance; breakdowns of total road loads; gas mileage analysis and driving styles; Aerodynamics. Tire specifications and constructions; tire motion analysis; tire force analysis; tire contact stress analysis; tire vibration analysis; tire models.	T1: Ch 9.
30-32	Chassis and Suspension Systems	Suspension Kinematics, Suspension types, Solid Axles, Independent Suspensions, Anti-Squat and AntiPitch Suspension Geometry, Anti-Dive Suspension Geometry, Roll Center Analysis, Suspension Dynamics, Multi-body vibration, Body and Wheel hop modes, Invariant points, Controllable Suspension Elements: Active, Semi-Active. Choice of suspension spring rate, Calculation of effective spring rate, Vehicle suspension in fore and apt directions.	T1: Ch 11

Evaluation Scheme:

Component	Duration	Weightage (%)	Remarks
Internal I		25	Closed Book
Mid Term Exam	2 hrs.	20	Closed Book
Internal II		25	Closed Book
Comprehensive Exam	3 hrs.	30	Closed Book

- 1. Attendance Policy: A Student must normally maintain a minimum of 75% attendance in the course without which he/she shall be disqualified from appearing in the respective examination.
- 2. Make-up Policy: A student, who misses any component of evaluation for genuine reasons, must immediately approach the instructor with a request for make-up examination stating reasons. The decision of the instructor in all matters of make-up shall be final.
- **3. Chamber Consultation Hours:** During the Chamber Consultation Hours, the students can consult the respective faculty in his/her chamber without prior appointment.

Notice for Examination on Value Added Course "E-Vehicle"

It is hereby notified to all concerned that an examination on "E-Vehicle" will be conducted on 24.01.2024. Based on the performance in this examination, the students will be presented the certificate of completion.

The venue and timings of the exam is given below:

Time: 3-5 PM Date: 24.01.2024

Venue: Room no. 229E, IUT Campus

Guidelines for students:

- 1. The examination will be of 100 marks with 120 minutes (2 hours) in physical mode.
- 2. Students should carry University ID card.
- 3. Students are advised to be in touch with the concerned faculty.

Minutes of Meeting and Resolutions Board of Studies, Faculty/Department of Mechanical Engineering, The ICFAI University Tripura

Introduction:

A meeting of Board of Studies, Mechanical Engineering, ICFAI University, Tripura was held on 08-09-2023, at 4 P.M. Dr. Prasanta Kumar Sinha, Principal, ITS, The ICFAI University Tripura chaired the meeting. The meeting was held in online mode. Google Meet joining info: https://meet.google.com/bje-qefb-ypp

Following members were present at the meeting:

- 1. Dr. Prasanta Kumar Sinha, Principal, ITS, IUT, Chairman
- 2. Dr. Subodh Debbarma, Associate Professor & HoD, ITS, IUT, Member Secretary
- 3. Dr. Amit Kumar Rana, Assistant Professor, ITS, IUT, Internal Member
- 4. Dr. Mrinmoy Dhar, Assistant Professor, ITS, IUT, Internal Member
- 5. Prof. Pritam Majumder, Assistant Professor, ITS, IUT, Internal Member
- 6. Dr. Bireswar Majumder, Professor, Jadavpur University, External Member
- 7. Dr. Raja Chakraborty, Professor, TIT, External Member
- 8. Mr. S.G Khune, Senior Vice President, Graphite India Limited, West Bengal, External Member

Agenda:

The agenda deliberated were discussed and following resolutions were passed:

Item No.	Particulars	
	Consideration of Action Taken Report for approval of the previously held	STORES OF THE STORES
	meeting on 11/01/23	
	The action taken report of last BOS meeting held on 11/01/23 was discussed	X9/1 5

after the approval from Academic council held on 24/01/23. Resolutions: The Action Taken Report of the previously held meeting on 11/01/23 was approved by all the members. Agenda: Inclusion of CRT (Corporate Recruitment Training) for B.Tech (2nd year to 4th Year) in Program Structure 2022-26, 2023-27, and (3rd Year sem II to 4th year Sem II) in Program Structure 2021-25, Resolutions: In order to improve the performance of the B.Tech Students in the placement interviews, the following corporate training courses (CRT) has Batch wise course details are as: 1. Corporate Recruitment Training I, Corporate Recruitment Training II, Corporate Recruitment Training III, Corporate Recruitment Training IV, Corporate Recruitment Training V, and Corporate Recruitment Training VI: (For 2022-23 regular batch and 2023 -2024 lateral batch and For 2023-24 regular batch and 2024 -2025 lateral batch) 2. Corporate Recruitment Training I, Corporate Recruitment Training II, and Corporate Recruitment Training III: (For 2021-22 regular batches and, 2022-2023 lateral batches) Lecture (L), Tutorial (T), Practical (P) and Unit (U) of each the course will be same as given in the table. Lecture Tutorial Practical Unit 0 2 Agenda: Inclusion of Theme Project for B.Tech (2nd year to 3rd Year) in Program Structure 2022-26, (1st Year to 3rd Year) in program structure 2023-27 and (3rd Year) in Program Structure 2021-25. Resolutions: In order to improve the performance of B.Tech Students in project work, a theme project is included in the program structure so that the students get experience into an almost unlimited variety of amazing real-life topics, which makes learning much more fun and challenging. Agenda: Course code Approval of the previous B.Tech Program Structure 2022-26. Resolutions: It is taken into consideration that the course name have been approved in the last academic council held on 24/01/2023 but course code was

idh dha

STATUS AND

	not approved so all the members agreed to place in academic council for approval of the same.
5	Agenda: Value added course approval.
	Resolutions: Department of Mechanical Engineering is going to offer three value added course namely- 1. Renewable energy resources and waste energy offered from the Academics session-2023. All the members agreed to it

The Meeting was concluded with vote of thanks by the chairman.

Dr. Amit Kumar Rana (Internal Member)

Dr. Mrinmoy Dhar (Internal Member) Prof. Pritam Majumder (Internal Member)

B. Hajumlen

Dr. Bireswar Majumder (External Member) R. Shalpetone.

Dr. Raja Chakraborti (External Member) Mr. S.G Klume (External Member)

Dr. Subodh Debbarma (Member Secretary)

Dr. Prasanta Kr. Sinha (Principal, ITS & Chaîrman)

Sub: Regarding Value Added course on Advanced Surveying

This is to inform you that Civil Engineering Department is going to organize a value-added course on **Advanced Surveying**. The course duration will be of 32 hours. Concerned students can register their names to the Faculty of Science and Technology office on or before 22/04/2024. The course will initiate from 24/04/2024.

Civil Engineering Department
The ICFAI University Tripura

Programme Name: B. Tech.

Programme Specific Outcome (PSO)

ENGINEERING KNOWLEDGE: Graduates shall demonstrate sound knowledge in analysis, design, laboratory investigations and construction aspects of civil PSO_1 engineering infrastructure, along with a good foundation in mathematics, basic sciences and technical communication.

BROADNESS AND DIVERSITY: Graduates will have a broad understanding of economic, environmental, societal, health and safety factors involved in infrastructural PSO_2 development, and shall demonstrate ability to function within multidisciplinary teams with competence in modern tool usage.

SELF-LEARNING AND SERVICE: Graduates will be motivated for continuous self-learning in engineering practice and/ or pursue research in advanced areas of civil PSO₃ engineering in order to offer engineering services to the society, ethically and responsibly

Bloom's Taxonomy Levels:

1. Remember 2. Understand 3. Application 4. Analysis

5. Evaluation

6. Creation

Course Outcomes (CO): VACE202

- CO1: A brief introduction of the Principles of Surveying and Techniques to conduct.
- CO2: Linear distance measurement and error minimization in surveying.
- CO3: Angular Measurements with respect to Magnetic Meridian and True Meridian of the Geodetic resources.
- CO4: Measurements using the concept of parallelism and horizon.
- CO5: Vertical plane measurement techniques using Equalization techniques in the form of Backsight and Foresight. Corrections included.
- CO6: Adjustment of instruments and their positioning.
- CO7: Mapping and layout of topographical undulations on the geodetic scape.
- CO8: Area and Volume calculation of earthworks
- CO9: Combined usage of angular and linear measurements using modern technologies and instruments.
- CO10: Setting out of linear curvatures on horizontal and vertical domain only.
- CO11: Distance measurement (Horizontal and Vertical) using modern techniques

> About the University

The ICFAI University, Tripura (referred to hereafter as the University) was established in 2004 through an Act of State Legislature (Tripura Act 8 of 2004). The University has been approved by the University Grants Commission, under Section 2(f) of the UGC Act, 1956.

The University campus based at Agartala is a lush green campus spread over 32 acres at Kamalghat Sadar, Tripura. It has over 6 lakhs sq. ft. of built-up area with academic blocks, workshops, laboratories, faculty rooms, auditorium, seminar halls, and computer labs with latest computing facility, well equipped library, canteen, sports and recreation facilities. The campus also provides latest teaching aids and is Wi-Fi enabled. The University is being widely recognized as an institution devoted to quality research and teaching. The University gives utmost importance to Industry-University interface.

> Scope & Objective of the Course

The course "Advanced Surveying" aims to provide an in-depth understanding of modern surveying techniques using Total Stations, Remote Sensing, and Geographic Information Systems (GIS). Students will learn how to operate Total Stations for precise measurements, analyse and interpret spatial data through Remote Sensing technologies, and apply GIS for mapping and spatial analysis. The course combines theoretical knowledge with practical applications, preparing students for advanced roles in surveying, mapping, and geospatial data management. Emphasis is placed on accuracy, data integration, and the use of technology to solve complex surveying challenges.

> Outcome of the Course

At the end of the course:

- 1. Students will be proficient in operating Total Stations for accurate land and structure measurements.
- 2. Learners will acquire skills to analyse and interpret spatial data using Remote Sensing technologies.
- 3. Graduates will be able to apply GIS for effective mapping and spatial data analysis.
- 4. Students will develop the ability to integrate and manage geospatial data from various sources.
- 5. Participants will be prepared to address complex surveying challenges using advanced technological tools and techniques.

> Duration of the Course

32 Hours

Course Details

1. Introduction to Advanced Surveying: Overview of modern surveying techniques, importance, and applications in various fields.

2. Total Station Operation: Principles, setup, and use of Total Stations for precise measurements.

3. Remote Sensing Basics: Fundamentals of remote sensing, data acquisition, and interpretation techniques.

4. Geographic Information Systems (GIS): Introduction to GIS, data integration, and

spatial analysis.

5. Practical Applications: Hands-on training with Total Stations, remote sensing tools, and GIS software for real-world projects.

6. Data Management and Integration: Techniques for managing, integrating, and analyzing geospatial data from multiple sources.

> Schedule

Every Week, Monday, Wednesday and Friday (2:00 PM - 5:00 PM) (Except Holidays)

> Examination Scheme:

Quiz: 20% weightage Assignment: 20% weightage Written test: 60% weightage

> Fees:

No fees for the Internal Students. Students/Research Scholars outside of the University: Rs:1000/-

> Registration Process:

Contact Details:

Office

Faculty of Science and Technology.

VALUE ADDED COURSE

ON

SOFT COMPUTING SKILLS

Established under section 4(2) of the Institute of Chartered Financial Analysts of India University, Tripura Act. 2004 Campus Address: Kamalghat (Near Agartala), PIN - 799210, Tet: 0381-2865752/62, Fax: 0381-2865754 Website: www.lutripura.edu.in, Email: registrar@intripura.edu.in

REF: |VT | ITS/CR | 2023-24- D-3150

Date: 15/04/2024

CIRCULAR

Sub: Regarding Value Added course on Soft Computing Skills

This is to inform you that Civil Engineering Department is going to organize a value added course on Soft Computing Skills. The course duration will be of 32 hours. Concerned students can register their names to the Faculty of Science and Technology office on or before 22/04/2024. The course will initiate from 24/04/2024.

Civil Engineering Department
The ICFAI University Tripura

About the University

The ICFAI University, Tripura (referred to hereafter as the University) was established in 2004 through an Act of State Legislature (Tripura Act 8 of 2004). The University has been approved by the University Grants Commission, under Section 2(f) of the UGC Act, 1956.

The University campus based at Agartala is a lush green campus spread over 32 acres at Kamalghat Sadar, Tripura. It has over 6 lakhs sq. ft. of built-up area with academic blocks, workshops, laboratories, faculty rooms, auditorium, seminar halls, and computer labs with latest computing facility, well equipped library, canteen, sports and recreation facilities. The campus also provides latest teaching aids and is Wi-Fi enabled. The University is being widely recognized as an institution devoted to quality research and teaching. The University gives utmost importance to Industry-University interface.

> Scope & Objective of the Course

This course provides opportunity to the academicians/ professionals to enrich their knowledge in the theory as well as field related problems to learn about the soft computing techniques for solving the problem of civil engineering. This course also provides students to learn fuzzy logic and applications in civil engineering solve single-objective optimization and its applications using GAs. After the course completion they will also understand the artificial neural network and its applications.

> Outcome of the Course

At the end of the course, student will:

- 1. To apply the soft computing techniques for solving the problem of civil engineering.
- 2. To learn fuzzy logic and applications in civil engineering
- 3. To solve single-objective optimization and its applications using GAs.
- 4. To understand the Artificial neural network and its applications.

Duration of the Course

32 Hours

> Course Details

Module 1: Concept of computing systems, "Soft" computing versus "Hard" computing, Characteristics of Soft computing, Some applications of Soft computing techniques.

Module 2: Introduction to Fuzzy logic, Fuzzy sets and membership functions, Operations on Fuzzy sets, Fuzzy relations, rules, propositions, implications and inferences, Defuzzification techniques, Some applications of Fuzzy logic.

Module 3: Concept of "Genetics" and "Evolution" and its application to probabilistic search techniques, Basic GA framework and different GA architectures, GA operators: Encoding, Crossover, Selection, Mutation, etc. Solving single-objective optimization problems using GAS.

Bloom's Taxonomy Levels:

1. Renxmbert

4. Amalysis 2 Understand 3. Application

6. Creation 5. Evaluation.

Programme Name: B. Tech in Civil Engineering

Programme Outcome (PO):

The programme buttomers are the skills and knowledge that a graduate will have during their graduation and also able to apply after graduation. Program outcomes defined as follows:

The graduates will have an ability to apply the basic knowledge of mathematics, science and engineering to real-life problems.

The gradientes will be able to understand problem identification, formulations, and to conduct experiments, by analysis and interpreting the data,

The graduates will be able to design a system, compored, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, The graduates will be able to design the experiments to evaluate the performance of engineering systems or component with respect to specifications.

The graduates will be able to improve the function effectively in engineering and science field, as well as in members of multidisciplinary teams. health and safety, manufacturability and sastainability

The graduates will come to know the application of modern wells such as different computer software, modern instrumentation for understanding the limitations of engineering activities and also for the modeling and design of engineering waterns 904

The graduates will be able to understand the professional and edited responsibility. P07

The praductes will come to know recognition of orestors, and an ability to engage in, like-long learning. The praductes will be able to make effective communication in oral, written, graphoes forms with confidence. POS

POTO. The graduates will be capable of understanding and understaining of the impact of engineering solution in global and societal correst.

POLI. Also it has been expected that graduates to achieve the following within four years of graduating:

a) Should demonstrate per-recognized expertise ingerher with the ability to articulate that expertise and use it to contemporary problem solving in the analysis, design, and evaluation of civil engineering projects.

b) Should demonstrate engagement in the engineering profession, locally and globally, by contributing to the ethical, competent, and creative practice of engineering or other

e) Should demonstrate sestationed fearning and adapting to a constantly changing field through graduate work, professional development, and self-study,

d) Should demonstrate leadership and initiative to etherally advance professional and organizational goals facilitate the achievening orders, and obtain substantive results.

e) Should demonstrate a commitment to teamwork while working with others in diverse cultural and interdisciplinary backgrounds.

Programme Specific Outcome (PSO)

ENGINEERING KNOWLEDGE: Graduates shall demonstrate vo. A knowledge in analysis, design, laboratory stressing and construction aspects of civil engineering infrastruction. along with a good foundation in multi-matics. Such as one or and reclatical controversation. PSOI

BROADNESS AND DIVERSITY: Graduates will have a broad understanding of economical, environmental, second, health and safety factors involved in intrastructural development, and shall demonstrate ability to function within match ciphary reams with competence in modern tool treage. PSC

SELF-LEARING AND SERVICE: Graduates will be medicated the continuous self-forming in engineering practice and or pursue research in advanced areas of civil engineering in origin to offer engineering services to the Stelety, ethouity and responsibly FS03

COURSE OUTLINE:

Scientists, researchers, academicians and students are involved in extensive research and publication work to produce new knowledge or in the interpretation of the existing knowledge base. The quality and quantity of this knowledge are popularly 4 evaluated by using various quantitative metrics known as mapping tools and technologies. Many organisations, policy makers, and government agencies regularly conduct such analyses for various reasons like ranking, funding, evaluations, project awards, rewards, etc. The evaluation process includes extracting large-scale research data, pre-processing and analysing. It requires both mathematical and computer skills to do effective analysis and presentation. This course has been developed, keeping all these parameters in mind, targeting people working or interested in the areas of Mapping Science/Scientometrics/Humanities & Social Sciences/Library & Information Science, Information Systems & Services professionals and the practitioners who are involved and aimed to do so such analysis in future. The course will introduce the concepts of various assessment metrics of research output, data extraction, pre-processing, different visualisation tools, ethics of analysis, software for extraction, refining and analysis of data, etc. The course also includes various case studies on quantitative assessment of Institutions, Authors, Journals, Domains, and Countries. Prior knowledge of mathematics, statistics, or programming is optional to take advantage of the contents of the course as it starts with the basics and helps understand the advanced concepts with easily understandable day-to-day examples. Some of the practical aspects of each concept covered in the course will be delivered in the RStudio. Other software like VOSviewer, Citespace, OpenRefine, etc., will also be covered. After the successful completion of the course, the learners will be able to understand the concept as above. They will also be able to conduct and publish the assessment studies in reputed journals, conferences or as research reports or manuscripts in any other form. The course aims to give learners the skills necessary to utilise open-source environments like R to evaluate and map the scientific knowledge generated by researchers.

ABOUT INSTRUCTOR:

Dr. NABI HASAN is the Librarian & Head of the Central Library, Indian Institute of Technology Delhi. Earlier, he served as the University Librarian at Aligarh Muslim University. He is the First Norman E. Borlaug Fellow from India in Library Information Systems, trained at Cornell University, New York, USA. Dr. Hasan has been honoured with the Fellow of the Special Libraries Association Award 2022 (FSLA). He won the SLA Engineering Librarian of the Year Award 2021, the Bonnie Hilditch International Librarian Award 2018, the SLP-SLA Asian Fellow Award 2019, and the SLA Presidential Citation 2021. Dr. Hasan has been conferred with the Royal Society of Chemistry's Librarians' Choice Award 2019 and won the SLA Overall Best Poster Award 2020. He is the recipient of the Vice-Chancellor Appreciation Award 2003 HP Agriculture University Palampur, Appreciation from the Chairman, Board of Governors, IIT Delhi 2012, Appreciation from the Vice-Chancellor of the Aligarh Muslim University 2018, Appreciation Certificate from IEEE twice, Lifetime Achievement Award 2015, and SALIS-Dr. Harish Chandra-Sushila Chandra National Best Librarian Award on Oct. 14, 2022. Earlier, Dr. Hasan served as President of SLA Asia and the Academic & Education Community of the SLA-USA. Dr. Hasan has 17 Books and over 175 articles to his credit. He is the 2024 President of the SLA Engineering Community, served as Co-Chair of the Annual Conference Advisory Council 2022-23 (ACS) and is a Joint-Chair of the 2024 SLA Annual Conference. More recently, he was awarded the Outstanding Academic Librarian Award 2023, conferred on National Librarians Day 2023 by the Social Development Federation, India and the 2023 Elsevier Library Stellar Club Membership on successfully completing its certification program. He headed the National Resource Centre in Library and Information Sciences of the Ministry of Education, Govt. of India, under its ARPIT MOOCs Program 2019-21. More details about him are available at: https://web.iitd.ac.in/~hasan

Prof. Mohit Garg is working as an Assistant Librarian at Central Library, Indian Institute of Technology Delhi. Before joining the IIT Delhi, he worked as Assistant Librarian at Indira Gandhi National Tribal University (A Central University), Amarkantak, Madhya Pradesh. He has qualified for UGC-NET-JRF and has submitted Ph.D. from IGNOU, New Delhi. He holds B.Tech (IT) from GGSIPU, New Delhi, and MS-LIS from Indian Statistical Institute Bangalore. He is a two continuous term (2017-2021, 2021-2025) Standing Committee Member of the IFLA Indigenous Matter Section, Netherlands, and other international and national associations. He has published Research papers in Scopus Indexed, and UGC CARE Listed Journals. His areas of interest are the Application of ICT, Research Methodology, Information Retrieval, Data Science, and Machine learning.

COURSE PLAN:

Week 1: Introduction to Science Communication, Research Productivity, Data Analytics, Open Source Software Bibliometrics, Scientometrics, Research Metrics, Impact Factor, H Index, G Index, i10 Index, H-5 Index, JCR, SJR, Eigenfactor, SNIP, IPP and Cite Score

Week 2: Data Sources and Extraction: PubMed, Scopus, Web of Science, Google Scholar. Boolean Search, API, Software for Extraction

Week 3: Pre-processing of Data, Data Cleaning

Week 4: Theoretical and Empirical Laws: Bradford, Lotka, Zipf's Laws

Week 5: Installation of R and RStudio: Basic operations, packages, functions

Week 6: Data Visualization: Heatmap, Bubble chart, WordCloud and other different charts

Week 7: Science Mapping: Co-citation, bibliographic coupling, co-word, co-authorship, Network Analysis: Eigenvector, PageRank, Clustering

Week 8: Performance Analysis: Publication and Citation related metrics

Week 9: Text Mining /Topic Modelling in Bibliometrics, Social media metrics, altmetrics

Week 10: Ethical Guidelines, Journal Selection, Theme, Review

Week 11: Academic Rankings: NIRF, THE, ARWU, QS

Week 12: Case Studies
