About the University

The ICFAI University, Tripura has been established through an act of the state legislature (Tripura State Legislature Act 8 of 2004). The University is recognized by UGC under Section 2 (f) of 1956 and the university is empowered to award degrees under section 22 of UGC Act, 1956. The University is currently offering 52 (fifty-two) programs in Management, Commerce, Engineering, Law, Teacher education, Special Education, Physical Education, English, Yoga and Library Science etc. The University strives to provide quality education with an objective to provide the students with an appropriate combination of conceptual framework and practical insight into managerial, technological, legal challenges as well as business opportunities for grooming entrepreneurial initiatives. It also provides exposure to real business problems and situations through industrial visits to different business sectors, case-studies and industrial interactions.

Registration Detail

For the smooth conduct of the program, an online Google Form was created to facilitate participant registration. The registration form was designed to capture essential information such as the name, designation, institutional affiliation.

Registration Link of the Session

<https://forms.gle/mZN5NEFvY5fnFHdZ9>

This registration form has been circulated among the participants to fill in their names, program and university details. This process ensures that all participants are properly registered and can actively take part in the program. It also helps in maintaining coordination and ensuring that the registration procedure runs smoothly and efficiently.

Detail Report of the Program

The Centre for Doctoral Programs (CDP), Scholar's Club, The ICFAI University, Tripura organized an Interactive Session on "*Conversion of Patent from Ph.D. Research Work: Patent Literacy among Researchers*" on 28th April 2026 from 3:00 PM to 5:30 PM at the Ground Floor Auditorium of the university. The programme was conducted with the objective of creating awareness among research scholars and faculty members regarding the importance of patents, intellectual property rights and the process of converting research work into patents.

The session commenced at 3:00 PM with formal greetings to all the dignitaries, faculty members, research scholars and students present in the auditorium. The welcome address was delivered by **Dr. A. Ranganath**, Registrar, IUT, who warmly welcomed the distinguished speakers and participants. In his address, he highlighted the growing importance of patents and innovation-driven research in higher education institutions. He also encouraged the research scholars to focus on quality research that can contribute to society and lead to intellectual property creation.

The keynote session was delivered by **Er. Harjeet Nath**, Assistant Professor, Department of Chemical and Polymer Engineering, Tripura University. He delivered an insightful presentation on the concept of patents, patent drafting, filing procedures, and the significance of protecting innovative research outcomes. He explained how doctoral research can be transformed into patentable work and discussed various practical aspects related to intellectual property rights. The session was highly informative and interactive, as participants actively engaged in discussions and raised queries related to patent applications and research commercialization.

The programme further continued with an address by **Dr. Prem Shankar Srivastava**, Principal, Faculty of Education, IUT. He emphasized the role of academic institutions in promoting research culture and innovation among scholars. He also discussed the relevance of interdisciplinary research and the need for awareness regarding patent literacy among researchers in different academic domains.

Subsequently, **Dr. Shantanu Acharya**, Assistant Professor, Faculty of Science & Technology, IUT, shared his valuable insights on research innovation, technology

transfer and the practical challenges associated with patent filing. He encouraged scholars to undertake socially relevant and innovative research that can contribute to technological advancement and national development.

The programme concluded with a formal vote of thanks delivered by **Prof. (Dr.) Dhananjoy Datta**, Dean, Centre for Doctoral Programs (CDP), IUT. He expressed sincere gratitude to all the distinguished speakers, faculty members, organizers and participants for making the session successful and meaningful. He also appreciated the active participation of the scholars and emphasized the need for organizing more such academic and research-oriented programs in the future. Overall, the interactive session proved to be highly enriching and beneficial for the participants. The programme successfully created awareness regarding patent literacy and inspired researchers to explore the possibilities of converting their research work into valuable intellectual property.

Outcomes of the Programme

1. The programme enhanced participants' understanding of patents and intellectual property rights.
2. Research scholars gained practical knowledge about converting Ph.D. research work into patentable innovations.
3. Participants became aware of the procedures and importance of patent filing in academic research.
4. The session motivated scholars and faculty members to focus on innovative and socially relevant research activities.
5. The programme encouraged interdisciplinary research and collaboration for innovation and technology development.
6. Awareness regarding research commercialization and protection of intellectual property was significantly improved among participants.
7. The interactive discussions helped clear doubts related to patent drafting, filing, and research ethics.
8. The session inspired the university community to undertake more research-oriented and innovation-based academic initiatives in the future.
